TOP 2 SCORES: _____ and _____

HOW TO INTERPRET YOUR SCORES:

Now that you've taken the survey, what does it all mean? Each letter (L, O, G, B) stands for a particular personality type. The column with the highest score is your dominant personality type, while the column with the second highest number is your sub-dominant type. While you are a combination of all four personality types, the two types with the highest scores reveal the most accurate picture of your natural inclinations, strengths and weaknesses, and how you will naturally respond in most situations. The four personality types can be likened to animals to make them easier to understand and remember. Below are complete descriptions of each one.

L = LIONS

Lions are very confident and self-reliant. In a group setting, if no one else instantly takes charge, the Lion will. Unfortunately, if they don't learn how to tone down their aggressiveness, their natural dominating traits can cause problems with others. Most entrepreneurs are strong lions, or at least have a lot of lion in them.

Otters are excitable, fun seeking, cheerleader types who love to talk! They're great at motivating others and need to be in an environment where they can talk and have a vote on major decisions. The otters' outgoing nature makes them great networkers—they usually know a lot of people who know a lot of people. They can be very loving and encouraging unless under pressure, when they tend to use their verbal skills to attack. They have a strong desire to be liked and enjoy being the center of attention. They are often very attentive to style, clothes, and flash. Otters are the life of any party; and most people really enjoy being around them.
